SPECIFICATION

Description

The McMurtry Spéirling is the first fan car to race in sanctioned motorsport since 1978 and has demonstrated the dominance of the fan-assisted downforce technology by both winning the Festival of Speed and setting a new outright record up the iconic Goodwood Hillclimb. Inheriting the technology from the pioneering innovators of Formula 1 in the 1970s, McMurtry Automotive has brought the concept into the 21st century, and with it a clear performance advantage.

Introduced to the world at the Goodwood Festival of Speed 2023, the Spéirling Pure starts at £820,000. The ultimate track car in its purest form, the Pure retains all of the power and performance of the Goodwood record breaking Spéirling fan car, ready for the track.

DK Engineering are privileged to be the exclusive UK agent for the incredible McMurtry, please get in touch for more information.
